LOCAL AND OTHERWISE.

The weather is mild and pleasant and bright overhead.

Henry Goodrich, C. Kelly, D. Nicholson and John Wedge left this morning for Van-Dave Wadsworth of Panaca is seriously

ill with an attack of la grippe. Dr. Campbell was summoned vesterday. Do you want some of the best underwear

call on the Godbe Mercantile Co. All the Chinese in Reno have been notified

The Republicans of Washoe county are taking steps to organize a Republican Club the call is signed by sixty of Reno's most

prominent citizens. Do not wear impermeable and tight-fitting hats that constrict the blood-vessels of the scalp. Use Hall's Hair Renewer occasionally, and you will not be bald.

Nevada will elect a full State ticket this year, also Legislative, County and Township officers. Already the boys are beginning to buzz. - Hawthorne Bulletin.

A meteor awept over California and Nevada last Thursday night and is believed to have fallen in Esmeralda county. Parties are out from Candelaria searching for it.

The closing out sale at the Godbe Mer. Co's store still continues. Better cash

Ailments incident to the winter season are affecting a number of our residents. Cases of grip or something akin to it are common and coughs and colds are almost universal.

Some of our sidewalks are in a dangerous condition owing to ice, and several falls are the result. Our citizens should see that the ice by cleaned away from in front of their

ranches, equal in style to any, done at this office.

Little Boy-I want a dose of castor oil. Druggiet-Do you want the kind you can't taste?

Little Boy .- No sir, it's for mother.

One of Carson's bright youngsters asked do. - Carson News.

Grip or some kindred difficulty still retains its hold on half the RECORD force, which reason we assign again this week for another somewhat short issue on local matters.

Chinese New Year celebration began Monday evening. The event was ushered in as usual with fire crackers and bombs, but the din was light compared with former years. Cause-Hard times and few China-

Charles Craw has instituted suit in the District Court to be decreed an equal owner route of the Nevada Southern, is called with Frank Wilson in all the latter's mining Pahrump. It is the principal one of them interests in Ferguson district, alleging a all for gold and silver and lead mines. Sevpartnership for prospecting purposes to have eral miles above the mill are the Pahramp existed between them when those claims springs, where a hardy pioneer has settled

With pure, vigorous blood coursing through the veins and animating every fibre of the body, cold weather is not only endurable but pleasant and agreeable. No other blood medicine is so certain in its results as Ayer's Sarasparilla. What it does for others it will do for you.

It is said that no town in the world can duplicate the mineral exhibit sent from Lovelock to the Midwinter Fair. It will the above town: Iron, lead, copper, bismuth, antimony, nickel, cobalt, borax, silver and gold. -Silver State.

The Nevada mission of the Methodist Episcopal Church for the year ending August, 1893, contributed to the benevolences of the church, \$1,686; paid in cash for the support of their ministers, \$16,536; paid for building and improving church proness, \$552, making a total of \$21,966, in voluntary contributions.

Some disappointing news reached town several days since concerning the Monitor-Jim Crow sale at Ferguson district. Several rumors were affoat, the main one appearing to be, that the Colorado parties who came here in December were willing to advance money for reduction works and to bring in water and take half the properties in payment. These terms the several owners would not accede to. Mr. Godbe, who holds the option, is reported to have asked an extension of thirty days time which, if granted, will enable him to interest other parties in the mines.

Rubber goods in great variety, boots and shoes of all kinds and qualities, clothing for men and boys, women and children, at the Godbe Mer. Co's store, and all at low prices

Many women find great difficulty in arranging their hair becomingly, because of its harsh and coarse texture. By the use of Aver's Hair Vigor, the hair becomes soft, pliant, and glossy. The Vigor is the most cleanly of all hair preparations.

A box weighing forty-four pounds containing the result of about ten day's run of the Cumberland and Osceola Gold Mining Company's mill at Osceola, was received from Superintendent A. J. Millick by Sol Hilp Friday last, to be forwarded to San Francisco. The result, we learn is highly satisfactory. - White Pine News.

One sack and two boxes of fine ore from the Joana mine, weighing 360 pounds; one box from Duck Creek, sent by Chris. Ostegard and John Berry, containing samples of ore carrying thirty per cent. copper and Advertising rates furnished upon application thirty per cent. lead, also one large piece of at the office. lead from the C. O. D. same district, containing 81 per cent. lead and nine ounces silver, were forwarded to the Midwinter Fair last week - White Pine News.

George Stelzer died Tuesday night at the residence of John Franks, of dropsy. Deceased was one of the proneers of this State. having worked and prospected in many parts of it for years. He came here from White Pine county several years ago, and has worked in the woods and at Highland district where he had some interests. He was a native of Germany and 66 years of age. The funeral took place this afternoon at one o'clock.

A late issue of the Descret News is re-

sponsible for the report that a general movement of railway construction material has of at prices lower than ever known here? Then late been going on toward Milford. Ties, rails, etc., lying at points along the road have been gathered up and shipped to the by a citizens' committee to be photographed southern terminal. This would indicate an and registered or prepare for expulsion from | intention of early resumption on the grade P. system is in the hands of receivers whose operation of the whole system have failed to meet its operating expenses for some time guson district. past and that they are now engaged in an effort to generally reduce the wages of the road's employees, weakens belief in any report of construction in any new quarters. Besides this, neither the stage men or any passengers recently in from Milford, report any accumulation of material there.

Earnest L. Godbe has been confined to the house most of the past week from the result of a recent accident which nearly proved fatal to him. Two weeks ago while at work assaying he thought to take a dose of calomel, finding what he thought to be this medicine among the office supplies. It proved to be corrosive sublimate, however, the ordinary dose of which is a tenth of a grain. He proceeded to take prices on anything than buyers have ever four grains and very shortly afterwards beknown here before. See what \$1 cash will came deathly sick and vomited copiously. This undoubtedly saved his life by relieving the system promptly of the mass of poison. While able to be about town for a number of days and to relate his unfortunate experience he was not at all well and Dr. Biornson has been attending him recently and he will shortly be about, all right again.

An Interesting Desert Country.

One of the most peculiar and interesting places on the American continent is just being opened up by the Nevada Southern JOB PRINTING In all its Railroad. The section lies across the diagonal line that forms the southern boundary of the State of Nevada, spreading into California, and reaching almost to the line of the Atlantic & Pacific Railroad. The old '49ers passed through this section during the California gold excitement. Many perished from thirst, and the remains of their wagons such as tires and other iron parts, may be found strewn about the valleys. Near us yesterday if the News took the "Emaci- Resting Springs a man by the name of Lee ated Press Report," and, under the circum- has a ranch, an Indian wife and a family of stances, we were forced to admit that we eight children. Not far from there is what is believed to be the famous Gunsight mine. One of the pioneers, in passing through that section, picked up a piece of lead almost pure, and made a sight for his gun with it. It was so rich that when he told the story in civilization prospectors started out to locate it. The fact of the similarity of all the valleys led many astray and they perished from thirst. His description of the spot applied to so many spots that no one has ever been ably to accurately locate the mine, but the present owners believe they have found

The valley adjoining that which is the in a beautiful little oasis and reared a family. Those who have visited the family say that away off there, imprisoned by canyon walls and sandy deserts, is the most beautiful woman in the West. She is one of nature's queens, and her fame for beauty is spreading quite rapidly since grim civilization placed his foot in the Pahrump valley. The Pahrump valley has not been noted for its civilization. A band of renegade Indians -a mixture of Mojaves, Chingowayras and Piutes, all of which inhabit that countryinclude the following minerals found near have settled in it. They once had a chief, and when he died his son was the candidate for the chieftainship. The tribe did not want him and would not elect him, so they went without a head, but not for long. Tecopa stepped into the job and has since held it, and is looked up to as the chief. Chief Tecopa's attire consists of a plug hat and an old striped shirt. Once in a while he wears trousers, but very seldom. When the property, \$2,602; and paid on church indebted- jector of the new road went there Chief Tecops said that he owned all that country, and that his consent was necessary before any railroads could be built. His consent could be bought for a plug hat and a red striped shirt. These being promised over a pipe, Tecopa allowed the white chief to pro-

ceed with his railroad. - Donver Republican. A Sturgeon Weighing Over a Long Ton. Some fisherfold the other day captured in Yerik bay, on the Don, a sturgeon weighing 79 poods, or about 4.000 pounds The fish was taken, singularly chough, in an ordinary net and without damage to the meshes. A sturgeon of this size will give about 10 poods of cuviare, having a marketable value of 1,000 Awarded Highest Honors--World's Fair.

FLAGSTAFF MINING COMPANY.

This is the name of the latest incorporated company for Ferguson district, and which was organized last week under the laws of

The properties incorporated embrace the Flagstaff, Apex and the Boss locations on past with very flattering results. The claims cross each other and the surface presents an unusually fine showing. The Apex ledge, supposed to be a continuation of the Jumbo, enters the north end of the Fiagstaff and is truceable on the surface nearly the whole length of the claim. The greatest outcrop is about the middle of the location where for 300 to 400 feet the ledge crops out boldly to a height of from four to twelve feet and is from twelve to forty feet in width. Sampled generally at various times this ledge has always returned good assays in gold, some running very high. In appearance, outcrop and generalities this ledge closely resembles that of the April Fool claim situated very nearly with of it

and about 3000 feet off. On the Boss claim the ledge has a strike of about north-east and south-west and is traceable nearly the whole length of the claim. This location crosses the north end of the Fingetag, and the ledge within the from Milford here, but the fact that the U. | Flagstaff lines has a bold outcrop and in places is thirty feet in width. These immense veins are not uncommon for Fer-

> At about the intersection of the Flagstaff vein running north, with the Boss, atwenty seven foot shaft shows \$7 to \$11 quartz for its entire depth, and on all sides.

The present workings tapped this vein at about 120 feet below the surface where the first samples taken showed \$300 in gold to the ton in some cases, with a streak of about ten inches wide which averaged about \$40, outside of which several feet of white quartz was found to run from \$4 to \$7. While this is good, something far better is expected when the Apex vein is encountered and work with a night and day shift, is being prosecuted in that direction

The various owners of the claims consti tute the incorporators. They are J. A. Denton, James Nesbitt, George Nesbitt, T. J. Osborne. Luke Syphus, George Syphus, C. P. Ronnow, James H. Empy, E. L. Godbe and W. L. Cook. The capital stock is placed at \$1,000,000, divided into 100,000 shares at a par value of \$10 each.

The work on the claims in progress for the past six months will be continued. Eight men are at present employed and the number may soon be increased, and the general impression of all who have examined the properties is that it will develop into a big dividend payer when properly opened

Shooting at Bullionville. Sheriff E. D. Turner was called to Bullion ville Monday afternoon to look after one W. E. Dow, recently employed as an amalgamater at the mill there. The man was discharged and paid off last Saturday, upon which he proceeded to booze up, and on Monday, early in the afternoon, he rode to the mill and fired two shots when about 75 feet off, at Walter Reeder the foreman, who with several others was engaged in putting a roof over the Howell roaster. He then rode away and when the sheriff arrived he had skipped for Panaca where he remained in hiding until the following day, when, failing to secure his trunk he came and gave some boisterous fun and as neither Reeder or the workmen would say otherwise, no criminal charge was preferred, the matter yesterday's stage. He came to Bullionville to have been a cow boy there.

None of the names of the fifty persons who voted the silver ticket last election and who, it is alleged, joined the Republican Club, has for some reason been published. Possibly they are held in reserve until Senator Jones passes through on his way back to Washington,-Reno Journal.

Of Isaac J. Wooten of Delaware, who was obey orders. recently confirmed as Indian Agent for Nevada, the Lanrel Gazette published at his own home, says: "Wooten's appointment to a post in Nevada is a good riddance to Laurel, an outrage upon the Indians, and a disgrace to every man who had a band in

The models of the Bulwer and Standard mines which were used as evidence during the litigation between those companies have been received from Bridgeport, and they will be sent to the Midwinter Fair to form part of Mono's exhibit. - Bodie Miner.

The hard times do not materially affect the Nevada Central Railroad, as the company has more men employed in the shops at this time than for some time past, and it will not be long before the rolling stock of the company will be in first-class condition -Central Nevadan.

OUR WASHINGTON LETTER.

Correspondence of THE RECORD

WASHINGTON, January 31, 1894. The sterling committee of Republican senators has fully decided not to oppose the bill for the admission of Utah to Statehood, and from the talk at the conference it may which work has been going on for six months be stated upon good ground that there will be no general opposition from Republicans to the admission of any of the Territories.

The Senate Judiciary Committee at its regular meeting took up the nomination of Mr. Peckham, of New York, to the Supreme Court vacancy. Senator Hill claims that the nomination will be rejected by a larger majority than was cast against Hornblower, notwithstanding the alleged attempt of boss Croker, of Tammany, during his presence in Washington, to make a deal that would allow the nomination to be confirmed

The support of the Republicans on the Senate Committee ou Foreign relatious was obtained for the Gray Hawaiian resolution, which was favorably reported to the Senate last week, through a misunderstandingsome do not hesitate to say misrepresentation. Senator Gray opened the eyes of the Senate when he interpreted the resolution to mean that the Senate endorsed the Cleve land policy towards Hawaii. He not only opened the eyes of the Senators, but he made it impossible for his resolution to be passed until it had been amended so as to leave no doubt of its exact meaning. Senator Dolph has stirred up the cuckoos by proposing the addition of the fellowing as an amendment: "and with a view of restoring amicable relations between the United States and Hawaii, the present minister of the United States to Hawaii should be immediately recalled."

Representative Bourke Cockran, of New York, was charged by his Democratic colleague from the same state, Amos Cummings, with having, as the attorney for a clique of diamond importers, used his position as a member of the Ways and Means committee to get that committee to recom mend an amendment to the tariff bill, reducing the duty on diamonds to ten per cent. That charge, which was backed by documentary evidence, and the shaming which Republicans gave the Democrate for desiring to lower the tariff on diamonds in behalf of the toiling masses, resulted in the defeat of the committee amendment and the adoption of one making the duty thirty per cent.

The most unique tariff protest yet seen was that presented by Senator Cullom, signed by 82 citizens of Streeter, Ill., and reading as follows: "We cannot feed, clothe and educate our families and compete against the poorer paid labor of Europe we are proud and don't want to be humiliated by asking for charity. How would any of you like to go to a soup house and sit down to free soup? We have pride as well as you. We ask you to defeat the Wilson bill, and we will take care of ourselver."

For some reason the free trade Democrats who have stood together for free coal, free iron and numerous other free things, split up on the vote on Breckenridge's amendment-Breckenridge favors numerous free things, as the country doubtless remembers. -providing for putting tin plate on the free list and that amendment was defeated, leaving a duty of 1 1-5 cents per pound on tinplate, just half of the McKinley duty. The most significant feature of the tin plate debate was the admission of Democrats that himself up. His explanation was that he the protection afforded to American tin hadn't tried to hit anybody but wanted plate by the McKinley law had resulted in some boisterous fun and as peither Reader building ap a new American industry of large proportions.

The selection of Senator Mills to take the was settled and Dow left for Montana by place on the Senate Finance committee of Senator McPherson, of New Jersey, who from Montana only six weeks ago and is said has gone away in a pretended huff because STAGE LINE. of alleged bad health, is only a part of the administration programme to force the Cleveland tariff bill through the Senate. McPherson is a warm personal friend of Mr. Cleveland, but his interests are such that he is opposed tothe tariff bill, so he concluded to straddle the question by going away and remaining away until the fate of the bill is settled. Mills can be depended upon to
